OOTORI – N801

# MASSAGE CHAIR

## OOTORI-N801

### FEATURES

- Full Body Massage – Combining the most realistic massage hands available with a body-hugging S-Track Rail and 38 airbags. 3 amazing automatic massage treatments designed to eliminate aches and pains. Target specific pain or trouble areas anywhere with the 6 manual massage treatments and lower back heat therapy.
- Advanced 3D Massage – Deeper and more human-like massage experience. The dual head roller mechanism has the ability to travel up/down, left/right, and in and out. The 3" node extension provides the option of a deeper and more customizable massage.
- S-Track – Provides support to both neck and back, especially the lumbar area. Increases the effects of massage as it enables each disc of the spine to individually separate and decompress, allowing nutrients to enter disc tissues.
- Air Compression Massage – The 38 air bags offer a compression massage to the neck, shoulder, arms, thighs, calves, and feet. In the manual settings, you can independently turn on and off any region of the airbags.
