Safety and Maintenance

1. Important Safety Warnings

- Do not allow children to touch any movable part of this product.
- Use the well-grounded power supply unit suitable for this product.
- Pull out the plug after use or before cleaning to avoid any physical injury or damage to the product.
- Operate this product as instructed in this manual.
- Do not use any parts or accessories which are not recommended.
- Do not use this product outdoors.
- Please read the Operation Instructions carefully before operation.
- Never use this product for any other purpose not listed herein.
- 20 minutes of usage each time is recommended.
- Do not use this product if the leather is broken or damaged.
- Do not use this product if the cover or leather is broken or damaged.
- Do not use this product if the radiator hole is covered or blocked.
- Do not drop anything into this product.
- Never fall asleep while using this product.
- Do not use this product if you are drunk or feel unwell.
- Do not use this product within one hour after a meal.
- Do not use this product with excessive force to avoid any injury.
- Do not carry any fragile, explosive, or combustible material in your pocket, such as a mobile phone and lighter when using the massage chair.

2. Operating Environment

- Do not use this product in a very moist environment such as the bathroom.
- Stop using this product immediately when the ambient temperature changes sharply.
- Do not use this product in any heavily-dusty or caustic environment.
- Do not use this product in a small space or a place without good ventilation.
- The normal room temperature ranges from 0 °C to 35 °C.
- Do not use this product in an excessively humid room such as a bathroom. Use it at a relative humidity between 20% and 80%.
- Do not use this product outdoors.
- Avoid direct sunlight.
- Keep this product away from any heat source such as a stove and air outlet of an air conditioner.
- Do not use this product during thunder or lightning weather.
- Do not use this product in dusty places.

3. The following populations should not use this product:

- Patients with osteoporosis.
- Patients with heart disease or wearing electronic medical devices such as a pacemaker.
- People who have a fever.
- Pregnant women or women on their menstrual period.
- Patients who are injured or have a skin disease.
- When unsupervised, any children are under the age of 14 and those unconscious are not allowed to use this product.
- People who are told by their physicians to have rest or who feel unwell.
- People whose bodies are wet are forbidden to use this product.
- This product has a hot surface. Persons insensitive to heat must pay attention when using this product.

Safety and Maintenance

4. Safety Precautions

- Check whether voltage is consistent with the specification of this product.
- Never insert or pull out the plug with a wet hand.
- Do not let water flow into this product to avoid electric shock or cause damage to this product.
- Do not pull the power cord when plugging or unplugging it. Rough handling is forbidden.
- Do not damage the wire or modify the circuit of this product.
- Do not clean live parts of this product with a wet cloth such as a power switch and plug.
- Be away from this product in case of power failure to avoid any injury if power is restored suddenly.
- Stop using this product at once while it works abnormal, and consult your local supplier.
- Stop using this product if you feel unwell, and consult your health care practitioner.
- This product is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning the use of this product by the personnel responsible for their safety. Children should be supervised to ensure that they do not play with this product.
- If the power cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified staff in order to avoid hazards.

5. Product Service and Maintenance

- This product should be maintained by the service center designated by the manufacturer only. No user should disassemble or maintain it without permission.
- Do not forget to turn off the main power switch after usage.
- Do not use this product if the power socket becomes loose.
- If this product will be left unused for a long period of time, it is necessary to roll up the power cord of this product and store this product in a dry and dust-free environment.
- Do not store this product at a high temperature or near open flame. Avoid prolonged exposure to direct sunshine.
- Please clean this product with dry cloth. Never use thinner, benzene or alcohol.
- The mechanical components of this product are specially designed and manufactured, so no special maintenance is needed.
- Do not use a sharp object to stab at this product.
- Do not roll or pull this product on any uneven ground. Instead, it should be lifted before moving.
- Please use this product intermittently. Do not keep it working continuously for a long period of time.

6. Solutions to Ordinary Malfunctions

- If the motor sounds during operation of this product, this is the normal operation sound.
- If the controller cannot work normally, check whether the plug and the power socket are connected reliably, and whether the power switch is turned on.
- If the rated working time is over, this product will automatically activate the power-off button; If this product keeps operating for a long period of time, the temperature protector will stop this product automatically. The product can be used again after half an hour.

7. Storage Conditions

- Storage room temperature: -5 °C to 35 °C.
- Relative humidity (RH) between 20% and 80%; free of corrosive gases, and a well-ventilated room.

Safety Warning

! Warning

When the legrest of the massage chair is lifted, nobody should apply pressure on the legrest to prevent the massage chair from falling forward which will damage this product or result in personal injuries.

! Warning

Before sitting on the massage chair, make sure that the massage chair manipulator does not stay in the seat cushion position to avoid discomfort to the buttocks during the body pressing down and any damage to the massage chair manipulator.

Safety Warning

! Warning

Do not remove or pull out the remote controller cable or the power cord in the standby or power-on state to avoid any damage to this product or accidental electric shock of a body part. You are advised to unplug the remote controller cable and the power cord and put them away after you use the massage chair.

! Warning

When the zero-gravity lying function is enabled, be sure to check whether there is any child or pet staying or playing under the bottom of the legrest and backrest, in order to avoid any damage to this product or physical injury.

Safety Warning

⚠ Warning

Before using the massage chair, remove any hard objects in your pocket(s) or any jewelry carried with you (e.g. key, watch, other similar portable hard objects) to avoid any damage to this product or physical injury during massage.

⚠ Warning

Do not unplug the power cord, or directly turn off the power switch on the back of the massage chair during massage, in order to avoid any damage to this product or physical injury.

Safety Warning

⚠ Warning

Please do not fall asleep on the massage chair while using to avoid personal injury caused by unconscious use.

⚠ Warning

The massage chair should not be used by more than two people at the same time to avoid product failure or personal injury. In addition, do not let children play on the massage chair or climb onto the lower leg, seat cushion, foot, backrest or armrest. Otherwise, accidents or injuries may be caused.

Safety Warning

⚠ Warning

When adjusting the footrest retractable function or when footrest is declining, please be sure not to put hard objects (such as keys, mobile phones, Etc.) or put the hand into the gap of the footrest, and the intersection with the armrest; To avoid product damage or personal injury caused during the process.

⚠ Warning

Before turning on the massage chair, check the surroundings to make sure that there are no people, pets or other objects around the massage chair. Avoid damage to the product or other objects or personal injury during the operation of the massage.

Name of Components

Function

- This product has designed a group of AI massage robots that can walk up and down, stretch back and forth, and are silent in design.
- It is designed with the function of automatic detection and micro-adjustment of shoulder position and the automatic detection function of human body curve and Shiatsu point to automatically adjust the stretch back and forth of the robot according to the detected human body curve and Shiatsu point, making massage more humanized and scientific.
- There are four types of automatic massage scenes with different characteristics: AI intelligent programs (Stress Relieving, Energy, Good-night Sleep, Joint Care, Neck&shoulder care, Spine Massage), exclusive programs for the wise (Only for White-collars, Exercise Conditioning, Relaxing Brain, Spine Care, Waist Care, Legs Care), relaxing and activating programs (Healthy Charge, Meridian Treatment, Keep Fit, Detox, Restoration Massage, Balance) and overall relaxation programs (Full-body Stretch, Thai Massage, Chinese Massage, Total Relax, Psychic Communion), 23 types of automatic massage programs.
- It has three intelligent storage functions: Custom 1, Custom 2 and Custom 3.
- It is provided with five message positions for manual selection, i.e. Full, Partial, Spot, Upper and Lower.
- It is provided with manual massage functions: including 17 massage techniques such as Knead (7 modes for switching cyclically), Tap (Tap I, Tap II), Knead & Tap, Shiatsu (Shiatsu I, Shiatsu II), Grasp, 4D (4D I, 4D II, 4D III, 4D IV) for selection.
- It is provided with massage adjustment functions: including 7 massage adjustment functions such as five-level back speed adjustment, five-level massage scope adjustment, five-level massage width adjustment, pneumatic three-level intensity adjustment, three-level roller speed adjustment and four-level massage time adjustment.
- It is provided with pneumatic massage function: the arm pneumatic massage function (12 built-in airbags), upper arm pneumatic massage function (4 built-in airbags), three-level pneumatic intensity adjustment.
- It is provided with the lower body pneumatic massage function; the leg pneumatic massage function (4 built-in airbags), foot pneumatic massage function (16 built-in airbags), three-level pneumatic intensity adjustment.
- It is provided with a unique shawl assembly, with innovative heating functions on the shoulder, back, waist and abdomen and heating with graphene. Users can place the shawl at different massage positions according to massage requirements. When the shawl assembly is placed at the shoulder position, it will heat the acupoints such as Bingfeng, Tianzong, Yunmen and Qihu around the shoulders and clavicle by graphene heating, effectively relieving symptoms such as scapulohumeral periarthritis and coughs and removing cold and moisture from shoulder joints; when the shawl assembly is placed on the abdomen and back (dual-purpose), through graphene heating, it plays the role of dispelling cold and relieving pain, warming channels and removing blood stasis in the back and abdomen, distributing Qi and blood of the back and abdomen meridian, alleviating the symptoms such as irregular menstruation and dysmenorrhea for women, relieving low back pain and kidney discomfort, warming intestines and stomach and clearing intestinal cold, with a good effect on some people with deficiency of qi and deficiency of spleen and stomach.
- It is provided with innovative heating function at the soles of the feet and toes, using carbon fiber heating; the sole of foot is the second heart of human body and toes correspond to the brain, trigeminal nerve, eyes, head and neck lymph nodes,

Function

- etc. Hot compress on toes can effectively relieve mental fatigue of human body and clear the mind.
- Slide rail technology is adopted for lying down of the backrest frame to always make the backrest zero distance from the wall thus saving space to the greatest extent.
- The guide rail of the backrest frame adopts curved guide rail technology, which completely conforms to the back of the human body and makes people enjoy a massage from the head to the thigh.
- It is provided with an intelligent voice control recognition function to control the massage chair with voice.
- Music playing system, with built-in 3D digital audio in the left and right upper arms. The Bluetooth function of intelligent devices can be used for wireless connection to play music.
- Mobile phone wireless charging function is set at the shortcut key of the left armrest and the mobile phone is placed in a fixed wireless charging position for charging.
- The left armrest is provided with shortcut keys such as On/Off (Pause) key, 4D intensity knob key, zero-gravity key, automatic mode key, voice control wake-up key, foot rest telescopic key, leg rest telescopic key, seat-up key, seat-down key, etc.
- It is provided with adjustment functions between calf-up and calf-down, between seat-up and seat-down, between zero-gravity 1 and zero-gravity 2.
- It is provided with calf kneading function: kneading and airbag squeezing around the inside and outside of the calves, which can relieve the stiffness or tension of the calf muscles caused by long standing.
- It is provided with foot roller massage function to scrape and massage mastoid at the arch and toes.
- It is provided with ankle stretching function: use the airbag squeezing function of foot rest and leg rest to fix the calf and feet by airbag tension, and then stretch the ankle by stretching the foot rest up and down, effectively alleviating muscle stiffness, leg muscle soreness and ankle strain after long-term walking and strenuous exercise.
- It is provided with leg traction massage function: the calf and backrest are lifted to form automatic lying down in a cyclic manner. At the same time, the lower leg air compression and the back manipulators cooperate together to massage, and the legs can be stretched for traction massage.
- The foot rest has the function of automatically detecting the plantar position. When the calf frame rises or falls to a proper angle, the foot rest will automatically detect the plantar position.
- The foot rest is provided with an electric telescopic adjustment function, which can adjust the telescopic distance according to the leg length of the user to achieve the most comfortable massage position and length for the foot.
- It is provided with a bump massage belt and magnetic therapy function in the left and right palm airbags.
- The left space capsule is provided with a voice control microphone and the right side of the head is provided with a negative oxygen ion generator.
- It is provided with a 7-inch TFT colored touch screen controller.
- It is provided with LED mood lights at the left and right armrest.
- Automatic sit-up function when the power is off and manipulator automatic reset function.

Touch screen manual controller interface introduction

Touch screen remote controller introduction

Note: The touch screen remote controller displays the color, massage function and massage function icon layout order, please refer to the physical display!

1. Bluetooth switch and display
2. Time adjustment button and display
3. The status bar
4. The shoulder position can be adjusted up and down
5. Massage status information display
6. Air pressure intensity display
7. Manual, intelligent storage, angle adjustment, settings and other massage function keys
8. The power switch
9. Automatic massage function
10. Massage switch
11. 4D massage function keys
12. Operation / pause button

Method of Usage

I. Switch power supply on

II. Massage function control operation

1). Start to massage

- After the massage chair cannot enter any mode operation in standby mode.
- Press "Power" button to start massage, enter the boot screen, backrest maintains the default position, calf rest raises slightly, choosing certain auto mode to start massage (Auto mode or memory function can be selected). The massage chair will shut down automatically if auto mode is not selected within 5 minutes.

- VIP Auto Program: Stress Relieving, Energetic Morning, Good-night Sleep, Joint Care, Neck&shoulder care, Spine Massage.
- Healthcare Auto Program: Office Regimen, Sport Recovery, Brain Refresh, Spine Care, Waist Care, Legs Care.
- Special Auto Program: Health Recharge, Meridian Treatment, Keep Fit, Bottom Toning, Restoration Massage, Tiredness Relief.
- Relaxation Auto Program: Full-body Stretch, Thai Massage, Chinese Massage, Total Relax, Airbag.

Method of usage

V. Turn off power, stop massage

- In the process of massage, press the power switch key to immediately turn off all massage functions, the backrest and the calf are reset, the massage time is up, and all massage functions are immediately turned off, and the backrest and the calf are not reset.
- Cut off the power supply of the whole machine, the figure (schematic diagram of the whole machine power cut).

- 1 Schematic diagram of the whole machine power turning off.
- 2 Schematic diagram of unplugging the whole machine wiring.
- 3 Schematic diagram of unplugging the power plug.

VI. Installation Instructions for Armrests

1. Find out the connector and air tube from the bottom of the seat frame and pass out from the middle of the seat frame (Figure 1).
2. Take out the armrest from the package and make the connector and air tube on the armrest correspond to the connector and air tube at the bottom of the seat frame one by one (butt joint according to the mark on the physical butt joint line) (Figure 2).

3. The connector and air tube on the armrest are inserted into the connector and air tube at the bottom of the seat frame, which should be in place and firm (Figure 3).
4. After the air tube and connector are docked, insert them into the bottom of the seat frame and take care to avoid the air tube from being folded (Figure 4).

Method of usage

5. Hold the armrest with both hands, first hook the front end of the armrest, hang it in the seat frame steel and press down the front end of the armrest. (Figure 5)
6. Then, align the male buckle on the rear end of the armrest with the female buckle on the capsule, insert the rear end of the armrest into the female buckle of the capsule and snap it tightly (note that the fit gap of the armrest capsule should be even). (Figure 6)

7. Fix the rear end of the armrest tightly with a M6*20 screw (Figure 7).
8. Pull the upper arm holster away and fix it with a M6*20 screw (Figure 8);

9. Align the mounting holes that fix the steel frame at the front end of the armrest, and then use the provided 4# Allen wrench to fix and tighten the armrest and the seat frame steel piece with two M5×14 black zinc environmental friendly hexagon socket head cap screws and a 6×12×1.5 black zinc environmental friendly flat pad (Figure 9).
10. Install the screw hole plug at the back end of armrest (Figure 10).

Method of usage

VII. Installation Instructions for Legrest

1. First of all, cut the connection wire and the air pipe tie fixed on the steel pipe (Figure 1).
2. Connect the connection wire and the air pipe leading from the lower end of the backrest to the legrest connectors. Confirm whether butt connection is OK. Then insert the butt connection wire and air pipe into the bottom of the frame from the lower hole of the backrest. Pay attention to avoiding any air pipe bending during insertion (Figure 2).

3. Firstly, insert the rotating inner sleeve and the rotating outer sleeve into the left and right rotation shafts of the legrest (Note: The large step must face inward) (Figure 3).
4. Then remove the rotation shaft cover supporting the legrest on the left and right frames of the massage chair (Figure 4).

Method of usage

5. Next, hang the legrest (left and right rotation shafts) into the rotation shaft cover supporting such frames simultaneously (Figure 5).
6. Place the rotation shaft cover. Press the rotating outer sleeve of the legrest. Then tighten the rotation shaft cover supporting the legrest with two M5×14 black zinc environmentally-friendly hexagonal socket head screws and a 6×12×1.5 black zinc environmentally-friendly flat pad by the supplied 4# hex wrench (Figure 6).

7. After the screws are tightened, hook the groove at the back end of the legrest cover to the hinge pin. Then press down the front end of the legrest cover to make it completely parallel to the rotation shaft cover. Hook the convex point at the side of the legrest cover to the hole at the side of the legrest hook. Finally, the legrest is installed (Figure 7).

Method of usage

VIII. Installation Instructions for Legrest

1. Align the positioning column of the bracket assembly with the positioning hole of the armrest bracket support plate and lock it with 3 cross-recessed screws (Figure 1).
2. Then fasten the decorative cover of the support (Figure 2).

IX. Use of the shawl

- It is provided with a unique shawl assembly, with innovative heating functions on the shoulder, back, waist and abdomen and heating with graphene. Users can place the shawl at different massage positions according to massage requirements. When the shawl assembly is placed at the shoulder position, it will heat the acupoints such as Bingfeng, Tianzong, Yunmen and Qihu around the shoulder and clavicle by graphene heating, effectively relieving symptoms such as scapulohumeral periarthritis and cough, and removing cold and moisture from shoulder joints.
- When the shawl assembly is placed on the abdomen and back (dual-purpose), through graphene heating, it plays the role of dispelling cold and relieving pain, warming channels and removing blood stasis in the back and abdomen, distributing Qi and blood of the back and abdomen meridian, alleviating the symptoms such as irregular menstruation and dysmenorrhea for women, relieving low back pain and kidney discomfort, warming intestines and stomach and clearing intestinal cold, with a good effect on some people with deficiency of qi and deficiency of spleen and stomach.

Method of usage

X. Pillow Pad and backrest pad's dismounting and use manual

- Using head cushions can reduce the kneading massage intensity on neck and shoulder, according to your needs to decide whether the head cushions is needed (recommend head cushions). Backrest cushion and backrest connected by zipper (1), head cushions and backrest pad connected by thread gluing (2).

Method of usage

XI. Floor Protection

- Put the heavy massage chairs on the wood floor for a may damage the floor, so please place a carpet or other object to avoid this damage.

Caution: Do not move the chairs with its wheels on wood floor, rough ground or in a narrow space. Two people are required to lift the chair. During the lifting period, take the calf rest end sealing plate and backrest cover grooves as the force-bearing point(Please do not lift armrest directly.)

XII. Instruction for Movement

- Make sure that all the wires are pulled away from the massage chair surface; then press the backrest down to a certain angle (with the center of gravity resting on the wheels), you can push the massage chair forward with hands, move it to a suitable position and gently restore it to the normal angle. (Note: During movement, you must turn off the power button first and then unplug the power cord and the remote controller connection wire).

Warning : The rear moving wheels of the massage chair are only suitable for short-distance and slow movement. For long-distance transportation, please use other auxiliary moving tools to move this massage chair!

Product specifications

Model: SL-A710
Configure: 12
Name: Massage Chair
Rated voltage: 110-120V~ 60Hz ☐
220-240V~ 50Hz/60Hz ☐
Rated power: 220W
Rated time: 20min
Safety structure: Class I

Material description: PVC, PA, steel parts, electric and electron components

MATERIAL	PU	LEATHER	CLOTH	WOOD
