Method of Usage

IV. Voice Control Instruction

- ·When the massage chair is turned on or in standby mode, the sound "Hi Alice" or "Hey Alice"will be produced to enable the voice control function. Alternatively, you can press the voice control button on the right armrest to enable the voice control function.
- · Long press 3 seconds to turn on or off the voice control function.
- After such function is enabled successfully, the massage chair will reply, "I am here." Please enter your desired action within 6 seconds. After the massage chair responds, you can achieve the massage mode you want; if not, the voice control function will automatically turn off.
- ·Note: Please use English when the voice control function wakes up. The speech rate is moderate; Voice commands should follow up the Voice entry.

Voice Control Entry			
	Entry: "Hi Alice" or "Hey Alice". Answer: I am here.		
No.	Voice control entry Answer entry		
1	Massage on	Answer: Ok, massage on	
2	Massage close	Answer: Ok, massage close

13	Change the other mode	Answer: Ok, change the other mode	
14	Go little down	Answer: Ok, go little down	
15	Go little up	Answer: Ok, go little up	

Note: commands 14 and 15 can only be used after command 13.

V. Operation Instructions for Bluetooth Speaker Play

- 1.Enter the smart device main menu. Open "Settings" and select the "Bluetooth" option. Open "Bluetooth", and Bluetooth will automatically "Search for a New Bluetooth Device".
- 2.The smart device will search for the corresponding Bluetooth model (e.g. IMCM-XXXX). Click the "Match" button. If you are asked whether to match with the device, you just select "Match" to complete matching.
- 3. Turn on "Music Player" in the smart device and select the song to play.

VI. Turn off the power and stop massage

- If the power button is pressed during massage, it will stop all the massage functions immediately, and the backrest, the legrest and massage chair manipulators will go back to the default positions. When the preset massage time is up, all the massage functions will be OFF. The backrest and the legrest will not go back to the default positions.
- Shut off the power supply of this product, as shown in the attached figure (Power Shut-off Diagram of the Product).

Switch position diagram of power supply

Unplug the power cord

VII. Installation Instructions for Legrest

- · After connecting the wires and the air hose between the legrest and the massage chair, remove the cable ties and insert the connecting part into the seat (Figure 1).
- Place the round tubes on the left and right sides of the legrest onto the legrest support (Figure 2).

Method of Usage

- · Next, flip the leg rest cover over to cover the round tubes on either side of the leg rest (Picture 3).
- Secure the leg rest to the massage chair with two M4 screws (one on each side). Check for bends in pipes, cables, wires, or other abnormalities when turning up and down. If all is well, install the leg rests (Figure 4).

VIII. Instructions for Removal and Use of Head Cushion and Backrest

•The headrest reduces the intensity of the neck and shoulder kneading massage. You can decide whether to use a headrest (recommended) according to your own needs. The backrest and the cushion are connected by a zipper (1). The headrest and backrest are connected by a zipper (2).

IX. Floor Protection

• The prolonged heavy pressure on the massage chair may cause scratches on the floor. Thus, put a carpet or cushion on the floor where the massage chair is placed to avoid this damage.

Note: Do not move the massage chair with its wheels on the rough ground or in a narrow space. At least two persons are required to lift it. During lifting, take the legrest sealing plate and backrest cover grooves as the acting points. (Do not lift the armrest directly.)

X. Instruction for Movement

 Make sure all wires are pulled away from the surface of the massage chair and press down the backrest to an angle (center of gravity on the wheels); you can push the chair forward, move it to the position you want and then return to standard pitch. (Note: During movement, you must turn off the power button first and then unplug the power cord and the remote controller connection wire.)

Warning: The rear moving wheels of the massage chair are only suitable for a shortdistance and slow movement. Please use other auxiliary moving tools for long-distance transportation to move this massage chair!

FCC Information

- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
- This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator & your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
