The product can be used again after half an hour.

Installation parts

Calf installation instructions

1. Insert the wire of the calf and the air pipe into the front socket of the steel frame assembly (Figure 1).
2. Then push the connected wire and air pipe into the hole in the backrest frame (Figure 2).
3. After the wire docking is completed, open the calf fixing covers on both sides of the steel frame assembly (Figure 3).
4. Lift the calf into the notch, close the fixing covers, and secure it in place with 2 pieces screws (Figure 4).

Note: this step can be ignored for all-in-one installation.

Place massage chair

Installation placement

Make sure there is enough space for the massage chair can be tilted at least 15 cm.

Do not expose the massage chair directly to high temperature environment due to sunlight (such as: in front of heating equipment), and place it to where can avoid high temperature and direct sunlight. It is recommended to lay a soft cushion for long-term use in a designated location. When laying the cushion, the size of the cushion should be enough to cover. Keep the range where the machine touches the floor and the range where your feet touch the floor.

Product lift instruction

Require team work to lift and move the chair to avoid injury.

1. Please lift the massage chair to move it on vulnerable ground such as wooden floor.
2. When moving on a similar wooden floor, it is recommended to lift it. Avoid damage to the casters. When the floor is lifted and moved to the designated position, be careful to keep your hands out of the way to avoid injury, and be careful of your feet being crushed. Do not let go of the unit until the unit is completely flat, the floor may be damaged, therefore, it is recommended to place mats, etc. on the floor.

Place massage chair

Move method

Use the rear casters to move the massage chair. Move the chair by tilting it down and backward about 45° as shown in the diagram.

NOTE: Excessive force to tilt will cause the chair to tip over completely and product damage.

1. Before moving, please shut down the machine properly to reset the whole machine, and then cut off the power.
2. Please keep the chair vacant when moving. (People, pets or clutter will not be able to stay on the chair.)
3. When moving, do not cross a drop barrier higher than 2mm or a gap greater than 5mm.
4. When using casters to move this product, single continuous movement is not supported; if the distance exceeds 50 meters, please make this product move slowly and evenly.

How to disassemble and use headrest cushion and backrest cushion

Using a headrest cushion can reduce the intensity of kneading massage on the neck and shoulders, and you can decide whether to use a headrest cushion according to your needs (recommended to use a headrest cushion). The backrest cushion and the backrest are connected by a zipper (1), and the headrest cushion and the backrest cushion are connected by a zipper (2).

Before use

Check around

Make sure that there are no people, pets and other objects around the unit.

Make sure there are no foreign objects in the gaps of the machine

Before massaging, make sure that no foreign objects are caught in the legs, feet, etc.
Under no circumstances allow hands, feet, and head to penetrate into the area between the lower leg mechanism and main body, or the area between the armrest and the capsule.
Under no circumstances should hands, feet, or head sink under the fabric or leather covering of the massage area.

Before Use

Turn on the power

Caution

Plug in power cord

Schematic diagram of power on

Turn on the power switch ("I" position)

- Please check whether the power cord and power plug are damaged before use.
- Please supply power to this product in accordance with the working power requirements of this product's calibration.
- It is strictly forbidden to use a power supply other than the nominal power supply of this product.
- It is strictly forbidden to connect various power conversion devices to supply power to this product without authorization.

I .Introduction of the remote controller

Product Structure

- 1.LCD Display:
 - Shows all massage functions.
- 2.Auto Massage Button:
 - Refer to page 17 for detailed instructions.
- 3.Back mechanism adjustment button:
 - Adjusts the massage pressure points for the shoulder area. Massage position adjustment (in fixed point or partial mode).
- 4.Seat up button:
 - Adjust the sitting posture to rise.
- 5.Seat down button:
 - Adjust the sitting posture to descend.
- 6.Power On/Off Button:
 - Turns the massage chair on or off.
- 7.Auto Programs Button:
 - There are Seven massage programs. Refer to page 17 for details.
- 8.Timer Button:
 - Adjusts the timer settings. Refer to page 20 for details.
- 9.Manual Massage Button:
 - Refer to page 18 for details.
- 10.Air pressure mode button:
 - Adjusts the air pressure massage zones. Refer to page 18 for details.
- 11.Massage Area Button:
 - Adjusts the massage area. Refer to page 18 for details.
- 12.Air Pressure Intensity Button:
 - Adjusts the intensity of the air pressure massage. There are five levels.
- 13.Massage Speed Button:
 - Adjusts the massage speed. There are five levels.
- 14.Foot roller button:
 - For details,please refer to page 19 of this manual.
- 15.Width Adjustment Button:
 - Adjusts the width. There are three levels.
- 16.Heating Button:
 - Turns the heating on or off.Refer to page 19 for details.
- 17.Pause/Start/Child Lock Button:
 - Refer to page 19 for details.
- 18.Zero Gravity Adjustment Button:
 - There are four automatic reclining angles to choose from, suitable for individual preferences.

2. Cut off the power of the whole machine. Figure (switch power off)

Power off ("0" position)

Take off the power plug

Take off the product power cable.

Cleaning and Maintenance

Clean PVC leather and plastic parts

Wipe the leather with a soft, dry cloth.

- Do not use chemicals such as thinner, gasoline, alcohol, etc. to clean the unit.
- When using commercially available leather care products (rags), please follow the instructions for use.

- If the PVC leather is particularly dirty, wipe it by the following methods.

- ① Immerse a soft cloth in water or hot water containing 3% to 5% neutral detergent, then wring it out thoroughly.
- ② Use the above soft cloth to wipe the leather surface.
- ③ Wipe off the cleaning solution with a cloth soaked in clean water and thoroughly wrung out.
- ④ Wipe with a wrung soft cloth.
- ⑤ Let it air dry naturally.

- When it is difficult to remove stains, please immerse commercially available melamine foam in neutral detergent, and then wipe the machine with it.

- Do not use a hair dryer to dry the surface.

- As the color of the fabric will stain the surface of the PVC leather, be careful when wiping the chair with denim and colored fabrics.

- Do not keep these parts in contact with plastic for a long time, as this will cause discoloration.

- PVC leather may be discolored, so when using hair dye, please cover the touched part with a towel.

Troubleshooting

Fault	When the calf mechanism or the backrest reaches a certain position, press the corresponding adjustment button and it will no longer change, and a continuous "beep, beep" sound will be emitted.
Solution	Due to product structure design and ergonomic requirements, this product has a limited protection design for the limit state of attitude adjustment. At the same time, a reminder sound will sound when the limit is reached.
Fault	The function does not work or some functions do not work after the machine is turned on.
Solution	After the machine is turned on by pressing the switch key, it is necessary to manually select an automatic massage program or other working state. If it is not operated, the machine will automatically shut down after 20 minutes. If the manual operation mode is selected, the functions that are not selected may be disabled, and the working mode needs to be manually set in the manual mode.
Fault	The machine makes a leather rubbing sound when adjusting its posture.
Solution	This product adopts high-grade anti-corrosion leather that meets environmental protection requirements. Due to the inherent characteristics of leather materials, there will be a normal slight noise when rubbing at the relative movement, which is a normal phenomenon. Note: If you hear fabric or leather tearing sound when the machine is running, please stop using it immediately and seek professional maintenance.
Fault	The massage wheel did not reach the shoulders or neck.
Solution	If the head does not touch the head cushion or the back does not touch the backrest, the shoulder position may be lower than the actual position during the body shape detection process. Sit in the deepest position of the seat, rest your head on the headrest, and start over from the beginning.
Fault	The unit is damaged. The power cord or power plug is abnormally hot.
Solution	To prevent accidents, be sure to contact an authorized service center.

Please feel free to contact the designated service personnel for any questions or doubts about this product.
